MEMORANDUM FOR: Colonel White

1. For several years now, in connection with my duties as Chief, Personnel Procurement, I have had an SI clearance with OCI. It has been suspended for the duration of my overseas trips, and reinstated again upon application. On returning to Washington early this month, before learning of my new assignment, I requested reinstatement of this clearance, and last week was advised that it has been approved.

2. I wonder if there is any reason why I might find it advantageous in this position to maintain the SI clearance, having it transferred to me over here, in such procedure is feasible? If you can see no reason why I should have it current, I will ask the Security Office, OCI, to vacate my clearance so that my replacement in the Office of Personnel can be put in for it.

3. Your comments will be appreciated.
